

# AVIÃO

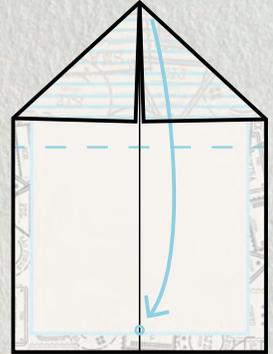

nível fácil

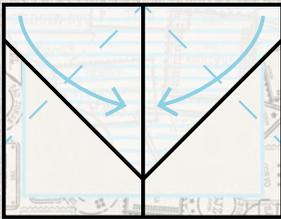

1. Faça uma dobra vertical a meio da folha e volte a abrir.

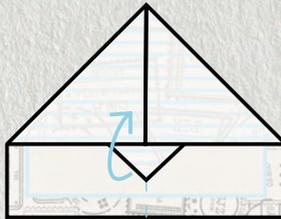

2. Dobre os cantos até à linha central.

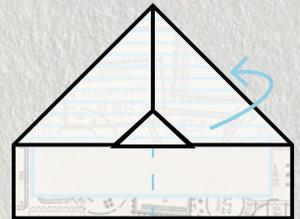

3. Dobre horizontalmente o vértice resultante até um pouco antes do final da folha.

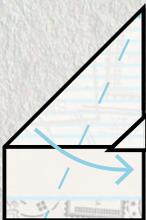

4. Dobre os cantos até à linha central.

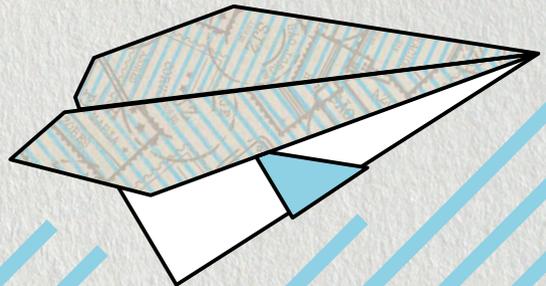

5. Dobre horizontalmente, para cima, o pequeno vértice.

6. Dobre ao meio, verticalmente, para fora.

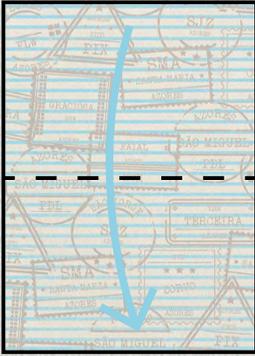

7. Dobre, novamente, de modo a unir as duas laterais que convergem no vértice superior. Repeta este passo no outro lado.

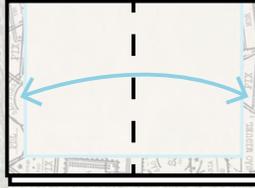

# BARCO

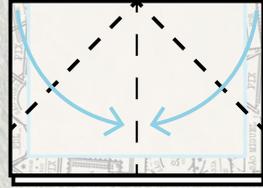

nível intermédio

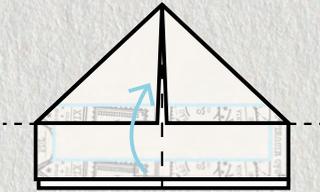

1. Faça uma dobra horizontal a meio da folha.

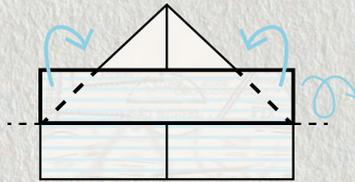

2. Dobre pela metade, verticalmente, e desfaça.

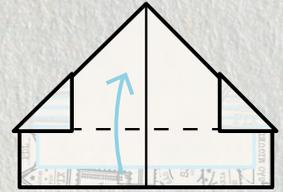

3. Dobre os cantos até ao centro.

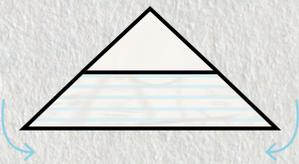

4. Dobre para cima, horizontalmente, a aba rectangular.

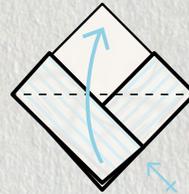

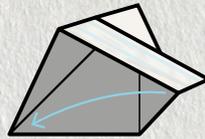

5. Dobre os cantos para trás.

6. Vire e repita os passos 4. e 5. com a outra aba rectangular.

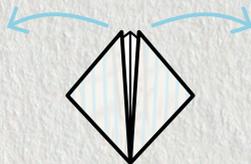

7. Abra o triângulo e una os seus dois vértices inferiores. Vinque as laterais.

8. Dobre a meio, horizontalmente, uma das abas. Vire e repita o passo.

10. Abra o triângulo da mesma forma que no passo 7.

11. Puxe os dois vértices para fora, em simultâneo, e abra.
